COMMERCIAL

## HBS1400R Series **Revolution®** Ice-Shaver / Blender

Always  
the correct  
amount  
of ice

With Revolution® Portion System

Regardless of the motor load, the Revolution® Portion System delivers the correct amount of ice every time!

The double-wall hopper is insulated for quiet operation and to keep ice cold

Hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain

A powerful 3 HP motor is built to satisfy the demands of the busiest bars

Operators use automatic cycle buttons to select serving size and number of servings for precise results

NSF®

**Insulated Double-Wall Hopper\***

Reduces noise and keeps ice cold

**Sensor Technology**

Hopper sensor prevents operation when lid is not in place. Drain sensor indicates if water is backed up in the drain. This alerts the operator to check the drain line and can prevent a messy water back-up

**Revolution® Portion System**

For maximum accuracy, this unique ice portioning system counts the number of times the agitator passes the shaver blade. Regardless of the motor load, the correct amount of ice comes out every time

**Programmable**

Additional 16 different cycles can be programmed either on-site or via available memory card

**Powerful 3HP Motor**

Built to satisfy the demands of the busiest bars

**Automatic Cycle Buttons**

Operators select serving size and number of servings for precise results

**Stackable 64 oz. / 1.8 L Polycarbonate Container**

With patented Wave~Action® system for smooth results every time
